PRODUCT OVERVIEW

this P02 AI Auto Face Tracking Gimbal is an intelligent smartphone tracking device designed for content creators, influencers, educators, fitness trainers, business professionals, and live streamers who want professional-quality video recording without a camera operator. Powered by advanced AI face and body tracking technology, the P02 automatically follows subjects with smooth 360° rotation, ensuring they remain perfectly centered in the frame. Combined with gesture control, detachable tripod support, and a portable design, it provides a complete hands-free content creation experience.

FEATURE HIGHLIGHTS

AI-Powered Face and Body Tracking	Smooth 360° Auto Rotation	Gesture Control for Hands-Free Operation	
No App or Bluetooth Required	Built-in Rechargeable Battery	Up to 5 Hours Runtime	Detachable Tripod Base Included
Compatible with Android and iPhone	Compact and Portable Design	Perfect for Video Recording and Live Streaming	

WHAT IS ENNIX P02 AI AUTO FACE TRACKING GIMBAL WITH 360° ROTATION, GESTURE CONTROL & TRIPOD BASE FOR SMARTPHONES?

this P02 AI Auto Face Tracking Gimbal is a smart tracking solution that transforms any smartphone into a professional video production tool. Using built-in artificial intelligence, it automatically recognizes and follows faces and body movements, keeping subjects centered without requiring manual adjustments. Unlike traditional tripods or selfie sticks, the P02 actively rotates and follows movement in real time. This makes it ideal for solo content creators, fitness instructors, educators, presenters, and influencers who frequently record videos without assistance. Gesture-based controls allow users to start, pause, or stop tracking with simple hand movements, creating a truly hands-free recording experience.

KEY FEATURES

- AI Face Tracking Technology**
Automatically detects and follows faces in real time, ensuring subjects remain centered during recording.
- AI Body Recognition**
Tracks full-body movements for fitness videos, presentations, dance recordings, and live demonstrations.
- 360° Automatic Rotation**
Provides smooth horizontal tracking to follow movement naturally across the recording area.
- Gesture Control System**
Allows users to control tracking functions using simple hand gestures without touching the device.
- No App Required**
Built-in AI functionality eliminates the need for additional applications, software installation, or Bluetooth pairing.
- Rechargeable Battery**
Provides extended recording sessions with up to 5 hours of operation on a single charge.
- Detachable Tripod Base**
Offers stable placement on desks, tables, floors, and other flat surfaces.
- Universal Smartphone Compatibility**
Supports most Android smartphones and iPhones for flexible content creation.

- **Portable Design**
Compact and lightweight construction makes it easy to carry during travel and outdoor shoots.
- **One-Button Operation**
Simple controls make setup and operation easy for beginners and professionals alike.

INDOOR USES

- Online Classes
- Live Streaming
- YouTube Videos
- Virtual Meetings
- Fitness Tutorials
- Dance Practice Videos
- Product Demonstrations
- Podcast Video Recording
- Business Presentations
- Online Coaching Sessions

OUTDOOR USES

- Travel Vlogging
- Instagram Reels
- YouTube Shorts
- Outdoor Fitness Recording
- Adventure Content Creation
- Event Coverage
- Street Interviews
- Social Media Content Production
- Outdoor Tutorials
- Lifestyle Vlogging

KEY BENEFITS

Creator Benefits

- Record videos without a camera operator
- Maintain professional framing automatically
- Improve content quality with AI tracking
- Create dynamic videos with ease
- Save time during production and editing

Professional Benefits

- Hands-free presentation recording
- Ideal for online teaching and training
- Improves virtual communication quality
- Supports remote business presentations
- Provides professional video production capabilities

TECHNOLOGY & PERFORMANCE

this P02 uses advanced artificial intelligence algorithms to recognize faces and body movements in real time. Its built-in tracking engine automatically rotates the device to keep subjects centered while intelligent gesture recognition enables touch-free operation. The combination of AI tracking, motorized rotation, and integrated battery power creates a seamless and professional video recording experience.

FEATURE	VALUE
Tracking Technology	AI Face & Body Recognition
