Real-Time Audio Transmission	Built-in Rechargeable Battery	Compact and Lightweight Design
Perfect for Interviews and Dual Speaker Recording	Professional Audio Quality for Content Creation	

WHAT IS ENNIX F11-2 DUAL WIRELESS MICROPHONE 3 IN 1 NOISE CANCEL MIC?

this F11-2 is a dual-channel wireless lavalier microphone system engineered to capture high-quality voice recordings in a wide variety of environments. Designed for smartphones, tablets, cameras, laptops, and recording devices, it enables users to record two speakers simultaneously while maintaining excellent voice clarity. The microphone is ideal for content creators who require professional audio without complicated equipment or technical expertise. With its advanced noise reduction capabilities and universal device support, the F11-2 helps users produce cleaner recordings for YouTube videos, podcasts, interviews, online classes, webinars, and live broadcasts. Whether recording indoors or outdoors, the microphone ensures reliable performance and clear sound reproduction.

KEY FEATURES

- Dual Wireless Transmitters**
Record two speakers simultaneously, making it ideal for interviews, discussions, podcasts, and collaborative content.
- Advanced Noise Cancellation**
Reduces unwanted background sounds such as traffic, wind, crowd noise, and ambient disturbances for improved voice clarity.
- 3-in-1 Universal Compatibility**
Supports Type-C, Lightning, and 3.5mm devices, enabling seamless use across Android, iPhone, cameras, laptops, and tablets.
- Plug and Play Operation**
No apps, drivers, or Bluetooth pairing required. Simply connect and start recording instantly.
- Wireless Range up to 20M**
Provides freedom of movement while maintaining stable audio transmission.
- Real-Time Monitoring**
Ensures synchronized audio capture for professional-quality video recordings.

- **Rechargeable Battery**
Supports extended recording sessions with dependable battery performance.
- **Compact Portable Design**
Lightweight construction makes it easy to carry and use anywhere.

INDOOR USES

- Podcast Recording
- Online Classes
- Zoom Meetings
- Google Meet Sessions
- YouTube Video Production
- Product Reviews
- Training Videos
- Live Streaming
- Corporate Presentations
- Educational Tutorials

OUTDOOR USES

- Travel Vlogging
- Street Interviews
- Event Coverage
- News Reporting
- Outdoor Reels
- Instagram Content Creation
- Fitness Videos
- Tourism Vlogging
- Public Speaking Events
- YouTube Shorts Production

KEY BENEFITS

Creator Benefits

- Professional audio recording without expensive equipment
- Supports dual-person content creation
- Improves overall video quality
- Reduces editing time through cleaner recordings
- Easy setup for beginners and professionals

Professional Benefits

- Reliable audio capture during interviews
- Clear communication during online sessions
- Portable solution for field recording
- Stable wireless connectivity
- Improved audience engagement through better sound quality

TECHNOLOGY & PERFORMANCE

this F11-2 utilizes advanced wireless transmission technology combined with intelligent noise reduction algorithms to deliver stable and clear audio performance. The dual-transmitter architecture allows simultaneous recording from two sources, while the real-time transmission system ensures synchronized audio capture for professional-quality content production.
