WHAT IS 4K PROJECTOR?

this 4K Projector is a high-performance projection device that caters to both casual viewers and cinephiles. It combines cutting-edge technology with user-friendly features, making it an ideal choice for home theaters, gaming setups, and business presentations. With its exceptional resolution and brightness, it ensures that every detail is displayed with clarity, making it a valuable addition to any entertainment or professional space.

KEY FEATURES

- High Resolution**  
Experience stunning clarity with 4K resolution, bringing your favorite movies, shows, and games to life.
- Vibrant Colors**  
Enjoy a wider color gamut for more vivid images, enhancing your viewing experience with realistic visuals.
- Smart Features**  
Built-in smart capabilities allow for seamless streaming from popular platforms, making entertainment more accessible.
- Versatile Connectivity**  
Multiple ports for easy connection to various devices, ensuring compatibility with laptops, gaming consoles, and more.
- Energy Efficient**  
Designed to consume less power while delivering high performance, making it an eco-friendly choice.
- Low Input Lag**  
Ideal for gaming with minimal delay, ensuring an immersive experience in fast-paced action.

INDOOR USES

- Create a home theater experience for family movie nights.
- Host engaging presentations for business meetings or educational purposes.
- Enhance gaming sessions with large screen projections for an immersive experience.

OUTDOOR USES

- Set up movie nights in the backyard for friends and family.
- Organize outdoor events or parties with large screen displays.
- Use for community gatherings or public presentations in parks.

KEY BENEFITS

Creator Benefits

- Enhances content creation with high-quality visuals.
- Great for showcasing artwork or photography in vivid detail.

Professional Benefits

- Impress clients with professional-grade presentations.
- Boost productivity with easy connection to various devices.

TECHNOLOGY & PERFORMANCE

this 4K Projector utilizes advanced DLP technology to deliver superior image quality and reliability. Its high brightness and contrast ratio ensure optimal performance in any environment.

| FEATURE        | VALUE                                 |
|----------------|---------------------------------------|
| Resolution     | 3840 x 2160                           |
| Brightness     | 2500 ANSI Lumens                      |
| Contrast Ratio | 10000:1                               |
